

# SHOWER ENCLOSURES

## ABOUT US

### COMPANY BEGINNINGS

Indoors BV was founded in December 2016 by its Managing Director Liron Ronen, an industry professional, with over 15 years of experience in the aluminum and glass business.

### REPUTATION

We acquired a reputation for providing high-end products, quality service, installation, and reliability during relatively short time of operation. First few years, we conducted no promotions, 100% of our business was through referrals (word of mouth), along with returning clients.

- **handles;**
- **locks;**
- **towel bars.**

We offer different designs, finishes, and colors. Different options are possible for different products. Contact us for the details.

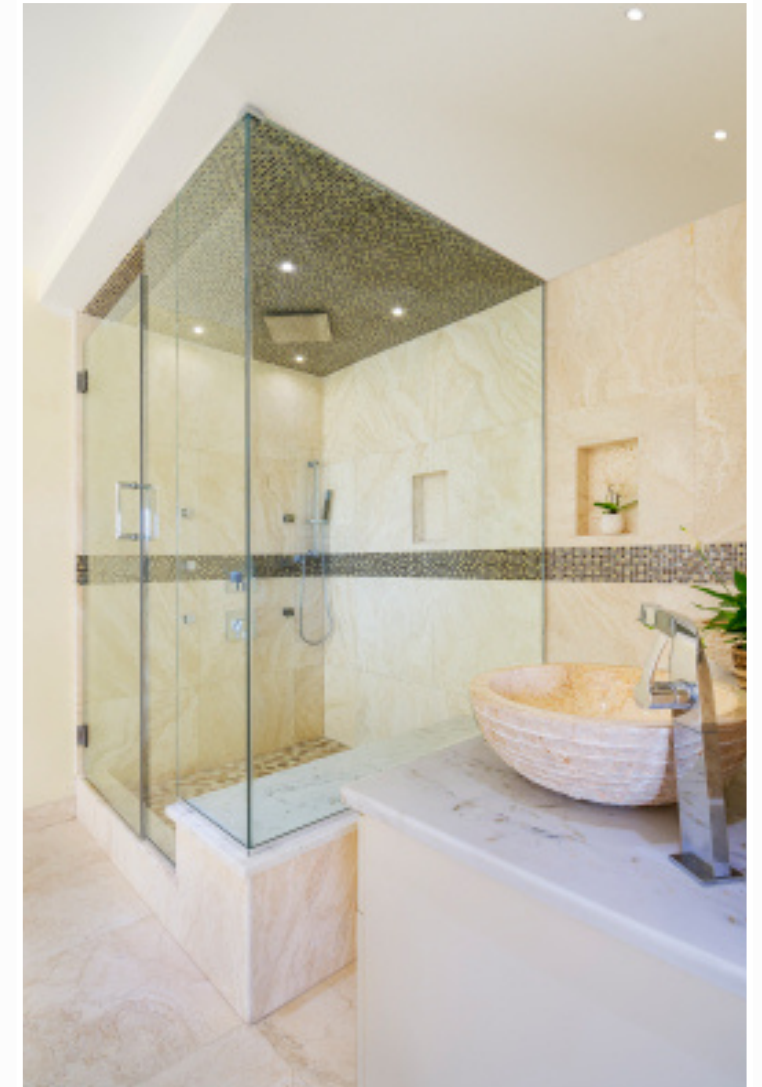

# WE'RE COMMITTED TO YOUR SAFETY

## TEMPERED GLASS

We sell only tempered glass shower enclosures, because your safety is our priority.

Tempered glass is glass that goes through thermal treatment processes to increase its strength. When broken, it shatters into many small granular chunks. Thanks to that, the risk of damages and cuts is relatively low. That's why it is called safety glass.

Tempered glass is about four times stronger than annealed glass. We offer 10- and 12-mm thick glass, making it a solid product and giving a high-end style impression.

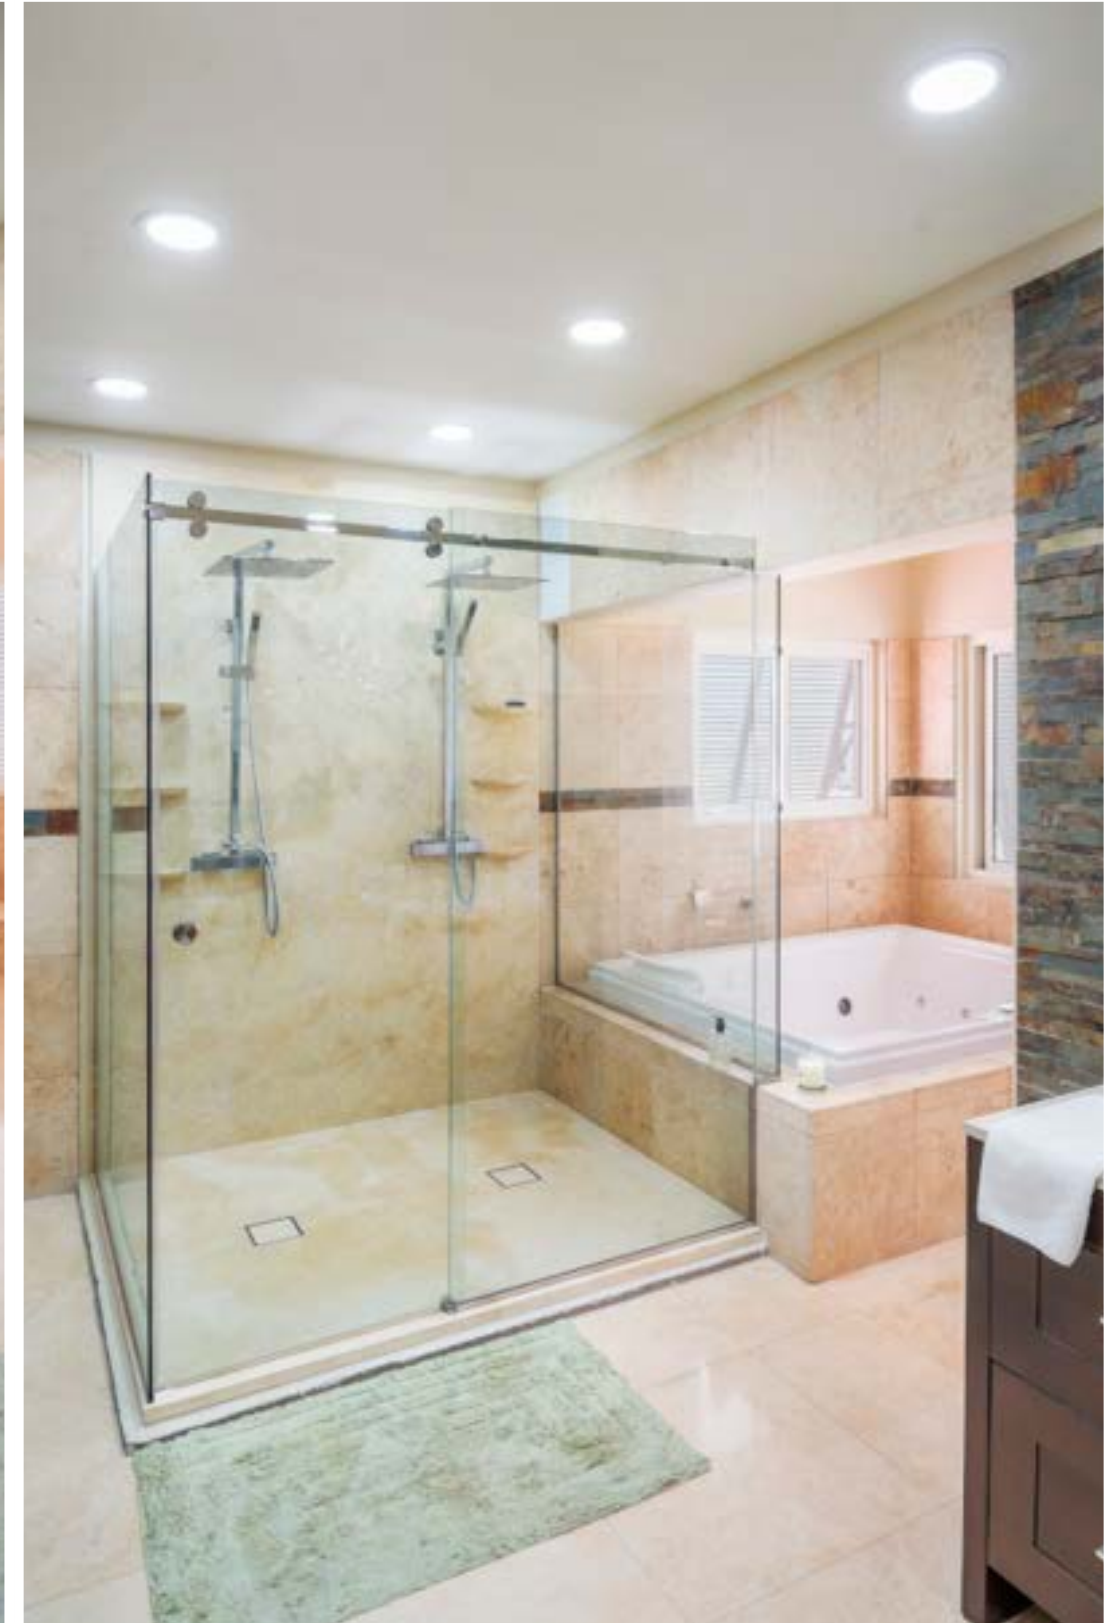

# OUR PORTFOLIO
